PATENT

REMARKS

After entry of the foregoing amendments, claims 11-16 will be pending in the instant application. Claims 1-10 and 17-38 that were previously withdrawn are canceled without prejudice. Claim 16 has been amended to read, in part, "...comprising a bridge that couples the second ends of the first ~~firs~~ and second coil members." As described above, the Abstract of the Disclosure and figures 1-15 have also been amended.

The Office action of August 10, 2005, states that the instant application is in condition for allowance except for informalities. First, the Office action notes that "firs" should be changed to read "first" in claim 16. Claim 16 has been so amended. Second, figures 1-15 are objected to because, the Office action states, figures 1-15 should be labeled "Prior Art." As shown in the foregoing Amendments, figures 1-15 have been so labeled. Finally, the Office action objects to the abstract because it exceeds 150 words. As shown in the foregoing Amendments to the Specification, the abstract has been amended to obviate this objection. No new matter has been added by any of the foregoing amendments.

Applicant respectfully requests a Notice of Allowance for claims 11-16.

Respectfully submitted,

Date: September 9, 2005
